Encl. one

IN MYSORE,

Dated Bangalore, 12th.....June,..... *194* 0.

FROM

P. H. KRISHNA RAO, ESQ., M.A.,
CENSUS SUPERINTENDENT IN MYSORE,
BANGALORE.

Charles E Noronha, Esq., M.A.,
Secretary to Government,
Development Department,
Bangalore.

SIR,

Sent with this Office letter No:1319 dated 5-6-40.

I have the honour to forward, herewith, a Note on the proposed SPECIAL INDUSTRIAL CENSUS to be taken in 1941, for the information and orders of Government. Copies of the Note were sent to the Director of Industries and Commerce in Mysore and to Mr. M. Venkatanaranappa and Mr.M. A. Sreenivasan. The reply received from the Director of Industries and Commerce is enclosed in original. The other two Officers have not yet replied. It will be observe that the Director of Industries and Commerce agrees with my proposal and accepts the forms prescribed. He suggests that certain other industries may be added. The suggestion may be accepted.

2. As to the Cottage Industries, an attempt was made even in the Census of 1931 to collect information about the value of raw materials utilised in a year and the value of finished goods, variations in production between the brisk and slack seasons etc. But it did not meet with much success. Information may be collected about all Cottage Industries including those that have come into existence since last Census as suggested by the Director of Industries and Commerce.

Bangalore.

No. C1 Enq.511/39-40 Dated 22nd May 1940

Enclosures One

SIR,

Subject:- Special Industrial Census - 1941

With reference to your D.O. letter no. 801-3 dated the 30th April 1940 / 4th May 1940 on the above subject, I have the honour to state that I am in agreement with your proposal to take a Special Census in 1941 along with the general population Census in respect of industries in the State, irrespective of their using or not using any mechanical power and also irrespective of the number of persons employed in each industry The classification of the industries suggested in the note forwarded with your letter and the Specimen forms of the Special Schedule proposed to be utilised for ascertaining particulars about the persons employed in the several industries appear to be quite appropriate and exhaustive. But as regards the list of industries to which the Special Industrial Census of 1921 was applied, I would suggest the desirability of adding to it under respective groups, while taking the census of 1941, a few more industries such as Silk Twisting, Nakki-works, Seasoning and treating plants, Art and Wood Works, Disintegrators and Decorticators, Coffee grinders, Brick kilns, Radios, Art Litho presses and other miscellaneous industries, as shown in the list forwarded with your D.O. letter under re-

ies.

As regards Cottage Industries, I note that it is proposed to collect Special Statistics about these industries. In view of the fact that the existence and development of cottage industries has an important bearing upon the well-being of the people, I am of the opinion that it is necessary and also desirable to collect in the case of each industry information regarding the present condition of the industry, value of raw materials and other resources utilised in a year, value of finished goods produced in a year, variations in production, if any, between the brisk and slack seasons etc., i.e., generally on the lines adopted during the Census of 1931. It is also desirable to collect Special Statistics about such of those cottage industries as have come into existence since the last Census of 1931, as for example, village flaying and tanning, button-making, improved mat weaving, improved pottery, glue-making, manufacture of paper by hand extraction of oils from power-driven wooden ghanas etc. Kind reference is also invited in this connection to the list of cottage industries contained in the preliminary note on cottage industries in the State, ~~etc~~ a copy of which was sent to you from this office on the 29th

MYSORE INDUSTRIAL CENSUS 1921.

---LIST OF INDUSTRIES.
